To whom it may concern:

This letter is a recommendation for my colleague at Wildflower Elementary School. I have been fortunate to have worked with Miss Morgan Pendleton as a kindergarten teacher for the last 2 years. I was her mentor the first year. She is a very dedicated teacher and has contributed to the development of our kindergarteners. She effectively uses data to drive her instruction. It is my opinion that Morgan Pendleton has what it takes to be an outstanding teacher for your school.

Miss Pendleton uses a variety of teaching strategies to help her students become readers and writers. She is great at creating centers for her students to learn with fun, hands-on materials. Her interpersonal skills are friendliness and respect for all she works with, both children and adults.

Miss Pendleton provides differentiated lesson plans to take her students to the next level or she reteaches skills that haven't been met. Her students adore her, as she is kind, always smiling and she motivates each and every student. I highly recommend her for a teaching position at your school. Please feel free to contact me if there are any questions.

Sincerely,
Kathy Pennington
